

Hi everyone! I just got back from Mission Impossible trip and I want to say THANK YOU SO MUCH for the financial and prayer support from you for the trip. Also, I would like to share with you some of the greatest things I learned there.

Before the trip I was nervous because I didn't know a lot of people that were going to be there apart from a few people from Church. I didn't know where we were going or the people that I was going to work with, and that was a little scary.

Well, turned out that the entire trip was AWESOME! I thought that riding with 6 people in the car was going to be difficult but it wasn't. We had a blast on our way there even though there were tornados and blizzards all around us. I'm so thankful that I got to ride with Andy, Micah, Karen, Joe and Rich. It gave me the opportunity to know them better and to share, not just space, but great experiences with them.

When we got to Colorado. I was so excited to see all the mountains around because it reminded me my country (Guatemala). That was something that I really liked. At camp, I started to meet new wonderful people and by Monday I felt that I was working with my family. (In fact, I was working with family in The Lord Mark 3:34). I got the job of building closets in two different rooms. I worked with a 72 year old man named Roger, and with a senior boy and a sophomore girl (Chris and Sara) from ACS. Wonderful kids. I got to work with them during the week. Of course none of us knew how to build closets, but thanks to the experts we did it!

I really want to thank the River Valley family for giving me this opportunity. Andy's message of God's promise to be with me was perfect. My time in the US has been difficult, and sometimes I felt like going home. Being at river valley began to give me hope, and going on this trip changed my experience completely.

I was blessed. Thank you!

Sincerely,

Cesia Moya
